23<sup>rd</sup> April 2010

Dear Parents,

A lovely sunny start to the summer term. Let's look forward to a sun filled and happy term. Our topic this term is The Olympics, so we shall be looking at:

History - A brief introduction to the Greeks and why The Olympic Games evolved.

Geography - A brief look at food and where it originated from especially high energy food associated with sports training. Then we will select 5 countries including the UK (London 2012) to study in more depth their "Olympic History and greatness."

Science- Healthy food and how we grow food.

DT. - Making and tasting salads.

ICT - Using Clip Art and other Paint packages to design healthy eating posters.

Art - Fruit pictures using a number of techniques/mediums and paint finishes.

RE - Judaism - How does a Jewish child celebrate Shabbat?

Music - Singing songs connected with food and adding rhythmic body percussion.

P.E. - Athletics and games skills, but closely linked to keeping fit and healthy. (Our PE days remain the same(Tuesday/Wednesday). Any new kit needs to be clearly named. Earrings need to be removed or taped and no further jewellery is to be worn).

As part of our topic we are planning to visit Durleigh Marsh Farm in June (further details will follow) where we will be able to pick fruit + vegetables and learn more about them.

Should you have any concerns or questions we are available before school starts (8.55am) apart from Monday, and at the end of the day (3.25pm) other than Tuesday.

The children have come back full of energy and enthusiasm and we look forward to the term continuing in the same vein.

Yours sincerely

Mrs P Bellamy
