

## Year 3: School Closure Work

Maths	Reading	Writing
<p><b>CGP Maths homework books</b> Continue to work through CGP homework books</p> <p><b>TimesTables</b> Continue to practise your times tables and related division facts up to 12 x 12 eg. <math>6 \times 5 = 30</math> <math>30 \div 5 = 6</math> How quickly can you answer questions?</p> <p>White Rose Maths hub has developed a learning programme for the first 2 weeks of the summer term. For each day there is a video or Powerpoint for the children to watch and then an activity to complete. The first unit is on fractions. The link below should take you to the Year 3 area:</p> <p><a href="https://whiterosemaths.com/homelearning/year-3/">https://whiterosemaths.com/homelearning/year-3/</a></p> <p>There are also daily lessons on the BBC website, some of which will be revising learning and some of which will be new learning.</p> <p>We will also be sending you some maths problems to solve 😊</p>	<p>Continue to read daily. It can be anything ...a recipe, a poem, information, instructions for a game etc. Talk or write about what you have read.</p> <p>As a class we have been enjoying David Walliams. He is reading one of his World's worst children stories daily. The link below will take you to this: <a href="https://www.worldofdavidwalliams.com/elevenses/">https://www.worldofdavidwalliams.com/elevenses/</a></p> <p>There are also lots of resources on his websites linked to his stories and the fantastic characters he creates.</p>	<p><b>CGP homework books</b> Continue to work through CGP homework books.</p> <p><b>Writing</b></p> <p><b>Spelling, punctuation and grammar</b> Practise words from the Year 3/4 spelling list and use 2 of these in your daily writing. Spend some time editing your writing to check you have used accurate punctuation and tense.</p> <p>Create a cartoon strip of your favourite part from the story read out by David Walliams from 'Elevenses' site. Try and include speech bubbles – ( Remember to write the speech first – then create your bubble around the written words!)</p> <p>Can you then write up a piece of dialogue from your cartoon strip? Try and use the following rules –</p> <ul style="list-style-type: none"><li>- New line for new speaker</li><li>- Speech marks 'sandwich' the spoken words</li><li>- Capital letter at start of each opening speech.</li><li>- Punctuation ( usually comma) before closing speech marks.</li></ul>
<p><b>Topic:</b> <b>Science:</b> Can you plant a seed/bulb/plant and explore what the plant needs to grow and survive? You could carry out an experiment where you plant seeds in different conditions e.g. one in the dark, one with a soil alternative, for example, cotton wool, give one no water, give one too much water, and you have one control seed which has all the ideal conditions (light, the right amount of water, soil to grow in). You can record the results on a poster or you could write the experiment up explaining what you did and what happened. Don't worry if you don't have any seeds or bulbs, you could just make predictions and write about what plants needs to grow and survive. Also can you identify and describe the functions of different parts of flowering parts? Here is a link to a video you could watch about this: <a href="https://www.bbc.co.uk/teach/class-clips-video/science-ks1-ks2-ivys-plant-workshop-parts-of-a-plant/zvdkpg8">https://www.bbc.co.uk/teach/class-clips-video/science-ks1-ks2-ivys-plant-workshop-parts-of-a-plant/zvdkpg8</a> After watching the video you could draw a picture of a flowering plant and label the parts and their function.</p>		

## Year 3: School Closure Work

**History:** Our topic this term would be ancient Mayan civilization. The BBC website has some videos and information. See if you can watch 'An introduction to the ancient Maya' and then choose how you want to present the information you have found out – you could do a poster, leaflet, make a game ...

<https://www.bbc.co.uk/bitesize/topics/zq6svcw>

Useful websites: Many organisations are offering free access and creating School Closure packages – here are a few we recommend you use regularly. Not all year groups use all of these sites, but if there is a \* it means your child may have a school log in.
